

Charlie Candlish

CREATIVE TECHNOLOGIST & RESEARCH FILMMAKER

Creative production / Full-stack development / AI workflows

WHY THIS ROLE

I make finished creative work and build systems that make it repeatable. Pluralis commissioned me to explain its AI research and create a company mission film for investor communications. I combine creative production, full-stack development and AI workflows, and help creators make, edit and run their channels.

PRACTICAL PROOF

FULL-STACK & AI WORKFLOWS

Service integration, voice generation and cloning, cloud hosting and storage.

CREATOR ENABLEMENT

Music, editing, channel growth and tools other creators use to work faster.

PRODUCTION SYSTEMS

ElevenLabs timing, custom Manim, and web-native HTML, SVG and Canvas tools.

EDUCATION

Master's degree
Industrial Mathematical Modelling

Loughborough University
Oct 2021 - Sep 2022

BSc (Hons)
Mathematics and Sport Science

Loughborough University
2018 - 2021

SELECTED EXPERIENCE

2026 - PRESENT

Research Filmmaker & Workflow Builder

Pluralis Research commissions | Creator collaborations

- Commissioned by Pluralis Research to explain its AI research in animated films, using my own end-to-end production systems.
- Work directly with the research team from source analysis through scripting, visual treatment, narration, animation, technical feedback and delivery.
- Full-stack capabilities spanning interfaces, service integration, generative AI, voice generation and cloning, cloud hosting and storage.
- Use ElevenLabs timing data to coordinate narration with code-driven animation; developed supporting tools for revision, music, sound and quality checks.
- Also commissioned to create a Pluralis company mission film for investor and fundraising communications, alongside technically reviewed research explainers.

SEP 2023 - PRESENT

Founder & Educational Filmmaker

alevelmathematics | Mathsy | Lessons in Biology

- Write, voice, animate and publish educational films in mathematics and biology, applying tutoring experience to pacing and visual explanation; grew Mathsy to 114,000+ followers and 1.1 million likes.
- Built animation, editing and channel-workflow tools used in my work and creator collaborations, making production faster and easier to run.

SEP 2019 - PRESENT

Mathematics Educator & Tutor

Tutorful | Part-time

- Teach learners from primary school to degree level, diagnose misunderstandings and adapt explanations in real time.
